

# Web Level 1 - Assignment #2

## Description

For your first assignment, you will write your first HTML code to create a page about a country of your choice.

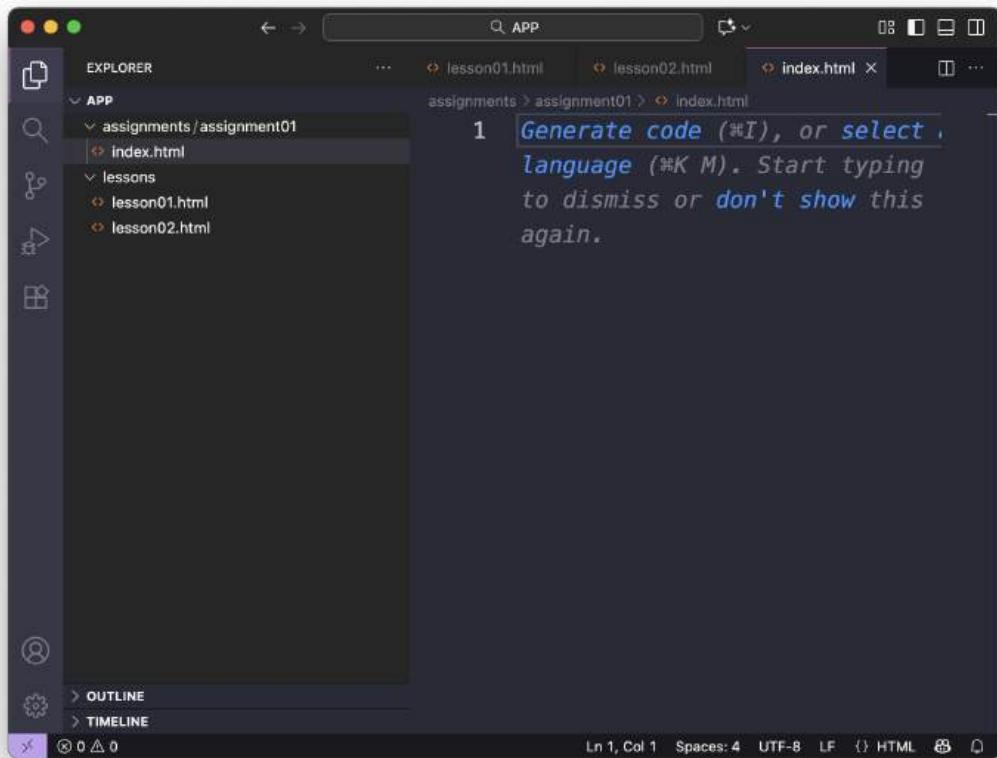

## Requirements

1. In the **APP folder** you created on your **Desktop** in Lesson #1, make sure you have a folder named **assignments**. In that folder, create another folder named **assignment01**. You can do this on your File Explorer or through VS Code.

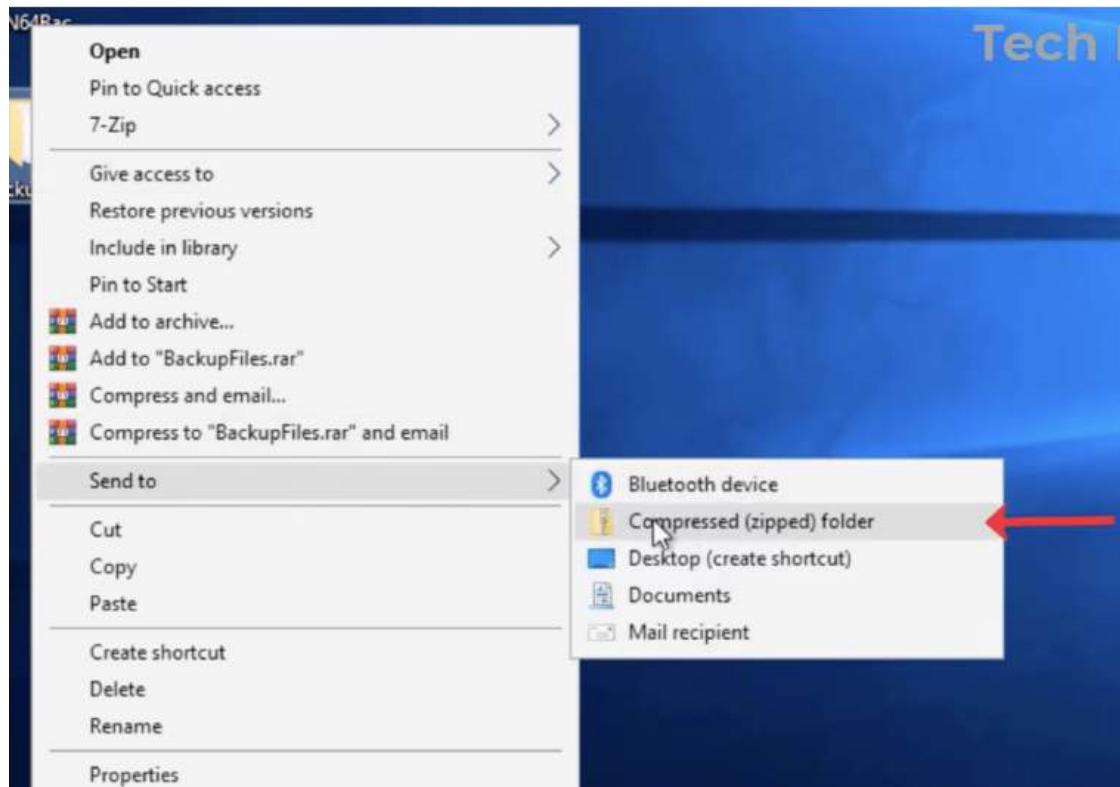

2. In VS Code, open up the same **APP** folder that you've been using for the lessons and Assignment #01. Create a new file named **index.html** in the **assignment01** folder you just created. Your VS Code should look something like this:

3. In the **index.html** file, add the **HTML Skeleton** like we did in class. Type out every tag so you get practice.
4. Write HTML code so that the browser's **tab** displays "Assignment 1".

5. Pick any country you want to create a page about.
6. At the very top of the page, use the biggest heading tag to display the name of the country.
7. Display **two paragraphs** about the country. You can get the text from a website like Wikipedia.
8. Display “Facts” in a secondary heading.
9. Below “Facts”, display at least **three bullet points** with facts about the country.
10. Below the bullet points, display “Best Cities to Visit:” in a secondary heading.
11. Below “Best Cities to Visit:”, display at least **three numbered items** with three cities.
12. Make at least one word **bold**.
13. Make at least one word *italicized*.
14. Add at least one emoji somewhere in the text.
15. Validate that your code is correct by copy pasting your code into a HTML validator like this one: [https://validator.w3.org/#validate\\_by\\_input](https://validator.w3.org/#validate_by_input). It will tell you if you have any errors in your HTML. Sometimes, the browser might not show errors but your code can have errors. Fix any code errors that show up on the validator.
16. When everything looks good, it’s time to **submit your assignment!** To submit this assignment, open your File Explorer and navigate to the **assignment01** folder that contains your assignment file.
17. Right-click on the **assignment01** folder and click **Send to**, then click on **Compressed (zipped) folder**. This will compress your folder into a **.zip** file.

18. Rename this `.zip` file to add your name to it, for example

`nayeon-kim-assignment01.zip`. Send this `.zip` file to your LA on WhatsApp. Do not share with the subgroup. Send it directly to only your LA. Alternatively, you can email this file to your LA. Contact your LA to get their email address if you prefer to email it to them. That's it. Congratulations on finishing your first assignment!

# Example

The screenshot shows a web browser window with the title bar 'Assignment 2'. The address bar displays the URL '/Users/nayeon/Desktop/APP/assignments/assignment01/index....'. The main content area features a large bold heading 'South Korea'. Below it is a paragraph of text. Further down, there's a section titled 'Facts' with a bulleted list. At the bottom, there's a section titled 'Best Cities to Visit:' with a numbered list.

## South Korea

South Korea, officially the Republic of Korea (ROK), is a country in East Asia. It constitutes the southern half of the Korean Peninsula and borders North Korea along the Korean Demilitarized Zone, with the Yellow Sea to the west and the Sea of Japan to the east. Like North Korea, South Korea claims to be the sole legitimate government of the entire peninsula and adjacent islands. It has a population of about 52 million, of which half live in the Seoul metropolitan area, the ninth most populous metropolitan area in the world; other major cities include Busan, Daegu, and Incheon.

The Korean Peninsula was inhabited as early as the Lower Paleolithic period. Its first kingdom was noted in Chinese records in the early seventh century BC. From the mid first century BC, various polities consolidated into the rival kingdoms of Goguryeo, Baekje, and Silla. The lattermost eventually unified most of the peninsula for the first time in the late seventh century AD, while Balhae succeeded Goguryeo in the north. The Goryeo dynasty (918–1392) achieved lasting unification and established the basis for the modern Korean identity. The subsequent Joseon dynasty (1392–1897) generated cultural, economic, and scientific achievements and also established isolationism starting from the mid-17th century.

### Facts

- The name *Korea* is an exonym derived from the historical Korean kingdom name *Goryeo*.
- Korean cuisine, such as kimchi and bibimbap, is popular worldwide.
- K-pop and Korean dramas have become global cultural phenomena.

### Best Cities to Visit:

1. **Seoul** - The vibrant capital city, known for its mix of modern skyscrapers, historic palaces, shopping districts, and nightlife.
2. **Busan** – A coastal city famous for its beautiful beaches, seafood, and the colorful Gamcheon Culture Village.
3. **Gyeongju** Known as “the museum without walls,” it’s filled with ancient temples, royal tombs, and cultural heritage sites from Korea’s Silla dynasty.
